LICENSURE & CERTIFICATIONS

Colorado APRN license | Current | FNP-C | Current | BLS | Current

CLINICAL COMPETENCIES

Patient assessment, Preventive care, Chronic disease management, Diagnostic review; Care planning, Patient education, Referrals, EHR documentation

CLINICAL EXPERIENCE

Family Nurse Practitioner | [Employer Name] | [City, State] | [Month Year] - Present

- Conduct patient histories and physical assessments and develop care plans within clinic protocols and current scope.
- Manage routine follow-up for common chronic conditions and coordinate referrals when additional evaluation is needed.
- Review available laboratory and diagnostic results and document follow-up plans in the EHR.
- Provide patient education on preventive care, medications, and follow-up instructions within the treatment plan.
- Reviewed previous visit notes, available test results, and current medications before the patient encounter.
- Documented assessment findings, clinical reasoning, and planned follow-up in the EHR under the applicable protocols.
- Managed a longitudinal panel of approximately 750 patients with scheduled preventive and chronic-care follow-up.
- Improved documented follow-up completion for diabetes and hypertension visits by reviewing overdue appointments with care coordinators.
- Standardized after-visit instructions for three common chronic conditions to strengthen patient understanding and referral handoffs.
- Helped refine a patient follow-up note template so pending tests and return precautions were easier to locate.

[Previous Position Title] | [Employer Name] | [City, State] | [Month Year] - [Month Year]

- Coordinated care, bedside assessments and discharge education for a medical-surgical patient assignment.
- Escalated clinical changes through approved protocols and documented timely interdisciplinary handoffs.
- Supported medication reconciliation and explained clinician-approved aftercare instructions to patients and families.
- Contributed to unit quality huddles by reporting recurring education and follow-up gaps.
